

Support Clay in Demand

That Russian Repatriation Mission Be Withdrawn From American Zone

WASHINGTON, March 3.—(AP)—The United States government, in a note to Russia, today gave General Lucius D. Clay full support in his demand that the Soviet repatriation mission be withdrawn from the American zone of Germany.

The American note, made public by the State Department, said Soviet Foreign Minister Molotov's protest against Clay's action was packed with "misrepresentation and distortion of fact."

Molotov's protest was delivered to the American Embassy in Moscow on February 24.

The American note was to be delivered to Molotov at Moscow today, by Foy Kohler, ranking American diplomat now on duty there.

Ordered Out

General Clay, American military governor, ordered the Soviet commission out on the ground that there is not enough still going on in its line to justify the Russians in staying. Few of the persons from Soviet territory in the American zone have been willing to go back home in recent months.

In substance the American note rejected numerous specific charges made by Molotov, and turned down his basic demand that the United States overrule Clay.

The note told Molotov in effect that voluntary return of people to Russia was O. K. with the American government but enforced return was not.

"This government," the State Department said, "considers the minister's note replete with misrepresentation and distortion of fact."

Soviet Reply

"There is no basis for the Soviet government's statement that large numbers of Soviet citizens desirous of returning to the Union of Soviet Socialist Republics remain in the American area of occupation, as a result of hindrances caused to the operation of the Soviet repatriation mission by American authorities or for any reason other than their own volition."

Higher Wage, Car Price up

DETROIT, March 3.—(AP)—The Ford Motor Co. put it this way today to the CIO United Auto Workers:

Another wage increase would force a boost in car prices; so would a pension plan unless employees pay part of the freight.

John S. Bugas, vice president in charge of industrial relations, gave the company's view in letters to UAW President Walter Reuther and Ford's 106,000 union members.

Bargaining on the UAW's demands for \$100 monthly pensions, health and welfare plans and some form of wage increase is scheduled to start May 15.

But Bugas suggested that some informal and presumably top-level company-union talks be held before then "in view of the changing economic situation."

He told the union an actual cut in wages would be necessary to finance a pension plan unless customers are asked to pay the bill through higher car prices.

If the latter course is chosen, he added, "we are convinced that too many of them (customers) would not stand for that."

Urge Funds For Table Rock Dam

WASHINGTON, March 3.—(AP)—A. T. Parrish of Springfield, Mo., and Rep. Christopher (D-Mo.) yesterday urged a house committee to approve funds for construction of Table Rock dam near Hollister, Mo.

Parrish, representative of the Springfield Chamber of Commerce, told an appropriations subcommittee there is a power shortage in Springfield, and that the rich valley lands of the White River need protection against floods.

Christopher said residents of the area have waited 12 to 14 years for work to start on the dam.

The budget includes \$125,000 for planning of the project next fiscal year, but nothing for starting construction.

Understand Philosophy of Other People

Educator Tells Kiwanians; Study World Conditions

All possibilities for peace should be explored before resorting to war, Dr. M. S. Schott, professor of education, Central Missouri State College, stated in a talk before the Sedalia Kiwanis club meeting in Bothwell hotel Thursday noon.

He urged more positive efforts of Americans to understand the philosophy and religions of other people rather than remaining complacent and ignorant of world conditions.

Dr. Schott was a lieutenant colonel during the last war and on the staff of General Joe Stilwell serving in the China-Burma-India region for 32 months. He told of experiences in those areas and his observations of the religious and racial problems existing there.

The speaker was introduced by Robert Malone, program chairman.

Robert Mullen was reinstated as a club member.

President Bert Hathaway announced that the charter night party of the California, Missouri, club would be held Monday night, March 14 and for members of the local club to make plans to attend.

Cain Objects To Wallgren

WASHINGTON, March 3.—(AP)—Senator Cain (R-Wash.) disclosed today he has written President Truman contending that Mon Wallgren has associated with Communists.

Wallgren, former Governor of Washington state, is a close friend of Mr. Truman. The President has nominated him to be chairman of the national resources board.

Cain is fighting against senate confirmation of the appointment. Cain made public letters to the President and to John R. Steelman, a presidential aide. In his letter to Steelman, Cain expressed "hope that the President will come to understand that his appointee is not the man to protect America against war, or the man to win it if it comes."

In substance, that amounted to Cain's saying he hoped the President would withdraw the nomination.

Wage Dispute Causes Shutdown

EL DORADO, Ark., March 3.—(AP)—A wage dispute has brought about a shutdown at the Lion Oil company's chemical plant here and a stoppage on a \$7,000,000 construction project at the plant. About 770 men are idle.

E. P. Shelton, chairman of the bargaining committee for the CIO Oil Workers Union local representing the chemical workers, said the men reported for work this morning and were admitted to plant but weren't working.

Widowed Mother And Eight Of Her Children Are Dead

MUSKOGEE, Mich., March 3.—(AP)—A mother, eight of her children and a roomer perished today when flames destroyed their flimsy frame home north of here.

The fire roared through the house after an oil stove exploded while the mother, Mrs. Maude Clover, was preparing breakfast.

The scene of the tragedy was the little resort community of Lakewood, 12 miles north of Muskogee.

Firemen and deputy sheriffs found the bodies of the 11-year-old woman and eight children ranging in age from 3 to 13 years in the ruins. A roomer, August Tasky also was a victim.

Mrs. Clover, whose estranged husband lives in Grand Rapids, also had three other children who at first were feared to be victims of the blaze. Later it was learned they were not at home at the time.

Two grown sons survived the fire but were badly burned before they could escape from the

Forrestal is Expected to Resign Today

Virginia Lawyer Probably Will be Defense Secretary

WASHINGTON, March 3.—(AP)—President Truman is expected to accept today James V. Forrestal's long-pending resignation as secretary of defense and name Louis A. Johnson, West Virginia lawyer, to the post.

White House informants said the action probably will be announced at Mr. Truman's news conference at 4 p. m. (EST). An exchange of letters between the president and Forrestal has been prepared for release, they added.

Forrestal, the nation's first secretary of defense, is the last cabinet holdover from the Roosevelt administration. He was secretary of the navy before he took the top defense job.

Johnson long has figured in speculation as Forrestal's successor. He is a former assistant secretary of war and served as chairman of the Democratic finance committee in the 1948 presidential campaign.

Matter of Timing

Presidential associates disclosed during the campaign that Forrestal was expected to step down after the election. The only question was one of timing.

The president is known to have delayed action because of his objections to publicity given his plans.

He and Forrestal have discussed the question of Forrestal's resignation from time to time. At one point it was understood that May 8 had been agreed upon as the date.

However, Forrestal expressed a desire to step out earlier and it is understood now that the change will take place within a short time.

White House officials look for secretary of the army Kenneth G. B. to be the next to step out of the administration, but they are not sure how soon that may be.

Storms Take Toll of Lambs

ST. LOUIS, March 3.—(AP)—Western storms have taken their toll of lambs for the market, but there will be plentiful supplies of beef and pork through 1949.

The prediction was made today by H. D. Wright, manager of the Producers Livestock Marketing association, before members of the National Stock Yards, Ill., cooperative from 35 Missouri and Illinois counties.

A record crop last fall halted the downward trend in cattle and hogs on farms and ranches, he said. But fewer lambs are on feed and the western storms caused heavy losses.

Wright said the best guarantee of adequate meat supplies is ample feed production. Current stocks of feed in relation to livestock numbers of the most favorable ever experienced, he said.

A drop in consumed demand for meats, he said, apparently is due to increased unemployment, shorter work hours in some industries and greater competition for the consumer's dollar from other products.

Lower prices in recent months are reducing the farmer's income, Wright told the group. If the trend continues, he said, it could produce serious results to the nation's economy.

Flight Has a Significant Place in Strategy of War

By John M. Hightower

WASHINGTON, March 3.—(AP)—Diplomats today assigned the non-stop round-the-world flight of an American bomber a significant and highly dramatic place in the grand strategy of the cold war.

An important fact in terms of international politics is that the State Department had opportunity to block the flight but did not do so. Two and a half years ago a somewhat similar project was vetoed by the diplomats.

Thus the changed attitude may be taken as a measure of the extent to which relations between Russia and the west have gone downhill.

The decline started at the peak of hopes for east-west cooperation in peacemaking. Its present low point is characterized by the belief of the western powers that military readiness to strike back is now an absolute essential of peace.

Important Events in World News

WASHINGTON, March 3.—(AP)—The House Banking committee voted 23 to 2 today to extend rent controls for 15 months, rejecting an administration request for a 24-months continuation.

The controls expire March 31, unless renewed.

The committee also: 1. Turned down an administration proposal to impose fines up to \$5,000 and imprisonment up to one year for landlords willfully violating rent ceilings.

Rejected an amendment by Rep. Brown (D-Ga.) that would have required the rent administrator to set rent ceilings to provide "reasonable return on fair value" of a rental property.

WASHINGTON, March 3.—(AP)—A House Labor subcommittee will start public hearings Monday on the administration's bill to repeal the Taft-Hartley Act.

Chairman Lesinski (D-Mich.) of the labor committee said the smaller group, headed by Rep. Kelley (D-Pa.), will call Labor Department witnesses for opening testimony.

The full committee will meet tomorrow to complete writing its minimum wage bill with the idea being to have it ready for floor action next week.

NEW YORK, March 3.—(AP)—U. S. Communist leaders pledged their party today to oppose any war provoked by "Wall Street" interests despite "the efforts of the peace forces of America and the world."

A statement issued by Communist National Chairman William Z. Foster and General Secretary Eugene Dennis declared American Communists would take no part in "an unjust, aggressive and imperialist war."

On the contrary, the statement said, the Communists would "cooperate with all democratic forces to defeat the predatory war aims of American imperialism and bring such a war to a speedy conclusion on the basis of a democratic peace."

In this sense the B-50 trip which ended yesterday at Fort Worth provides a single dramatic instance. It shows what the United States and other western powers are trying to accomplish on a broader scale and in a different way through the proposed Atlantic security treaty.

Top American officials define the purpose of that treaty as being to confront any potential aggressor—by which they currently mean Russia—with such "overwhelming" force that he would not dare attack.

In the flight of the B-50 bomber the Soviets can now read unprecedented evidence of the range of American strategic air power. They may reason that no single one of their cities, should war ever come, would be safe.

Chairman Tydings (D-Mo.) of the Senate Armed Services Committee commented solemnly: "This flight offers some measure of what another World War would mean to all peoples."

Empty Gun Didn't Fool Holdup Man

ST. LOUIS, March 3.—(AP)—Louis Vick was counting the cash register receipts early today at his tavern, he told police. A man with a gun appeared at the foot of the stairs and said, "This is a holdup."

Vick dashed out of view of the doorway, grabbed a gun from under the bar, and fired. The man disappeared. Vick fired five more times down the stairway.

The holdup man, realizing the gun was empty, rushed up the steps once more and relieved Vick of his gun and \$125 in cash.

Mo-Pac Lays Off Men in Repair Shops

ST. LOUIS, March 3.—(AP)—A business slump is forcing the Missouri Pacific railroad to lay off 10 to 20 per cent of its employees in repair shops at North Little Rock, Ark., and Sedalia, Mo., the railroad announced yesterday.

A Mopac spokesman said the railroad hopes the layoffs will be only temporary. He attributed part of the decline in business to cold weather damage to perishable crops in the south and west, which has reduced the amount of rolling stock necessary for shipments.

At Poplar Bluff 30 mechanical department employees have been laid off, it was announced today. This reduction cuts the number of employees at that terminal at least one third.

Meanwhile, Arthur K. Atkinson, president of the Washburn railroad, said the volume of Washburn business has declined 16 per cent below its level of a year ago, and added:

"I am not sure when we would have to make a drastic cut. If things do not start leveling off we are going to have to take stock and see wherein we can economize."

Washburn has not made any "horizontal cuts" in personnel yet, he said, and the number of employees of the railroad on Feb. 15 exceeded the number on the same date in 1948.

Wednesday a notice was posted at the Missouri Pacific shops to the effect that fifty-three shopmen in the locomotive and repair shops would be laid off temporarily Saturday, March 5.

Thirty-three employees there were given lay-offs about a week ago.

Wondered Why He Felt No Pain

GLASGOW, Mo., March 3.—(AP)—Night Marshall W. E. Holst thought it strange he didn't feel any pain when a hold-up shot him at point blank range last night.

This morning he discovered the reason. The bullet had been stopped by an eyeglass case the officer carried in the lapel pocket of his coat.

Holst said he was accosted by a Glasgow youth as he stepped into his car outside a cafe. The youth fired, appeared momentarily surprised that the officer did not fall, and then fled.

The youth later stole a truck and abandoned it near Turtle Lake.

Holst, as surprised as the youth after the shooting, said he was unable to find a hole where the bullet had entered his outer coat.

Lucky Lady II Crew Sleep Off Quarantine

Chance Placed World Circling Plane in History

By Wilbur Martin

FORT WORTH, Tex., March 3.—(AP)—The crew of the "Lucky Lady II," by chance the first men to fly non-stop around the world, slept off a 24-hour quarantine today.

The fourteen men landed at Carswell air base yesterday, 94 hours and one minute after standing by orders became operational. They had crossed seven seas and four continents, covered 23,452 miles, re-fueled in mid-air four times and circumnavigated the globe at nearly its greatest girth.

Chance placed "Lucky Lady II," its pilot, Capt. James Gallagher, and crew in history. Another plane was to have made the flight.

The B-50 bomber which started what the air force chose to call a "routine training mission" got as far as the Azores after taking off last Friday. The engine fire which forced this plane down sent "Lucky Lady II" aloft.

Gallagher and his history-making crew had been on standby by orders for any emergency that might arise. Their B-50, an improved version of the B-29 super-bomber, was airborne at 11:21 a. m. (CST) Saturday.

The sleek, silver plane returned to its starting point yesterday at 9:21:55 a. m. (CST). Shortly afterward its crew was placed under a 24-hour quarantine, ending today at noon.

The quarantine was part of the "training mission." The fourteen men were weary-eyed when they dropped out of escape hatches and bomb bay doors, although beaming and in good physical condition. But medical officers wanted to check the effects of a non-stop flight and to give the men a chance to sleep — on beds with springs and sheets instead of GI blankets, thin cot mattresses and a bomber floor.

'Lucky Lady's' Route

This map shows the route of the "Lucky Lady II," U. S. Air Force B-50 bomber in making the first non-stop, around-the-world flight in history. The 94-hour hop began and ended at Carswell Air Force Base, Ft. Worth, Texas, after covering 23,452 miles—almost the distance of the earth's circumference at the equator. Time required to reach each base where the plane was refueled in the air is given in box with place name. (NEA TELEPHOTO)

distances were to be computed today.

Top air force brass greeted the men of "Lucky Lady II" when it landed.

One Lt. Gen. Curtis E. LeMay, chief of the Strategic Air Command, said success of the mid-air refueling now means the air force can reach "any place that would require an atomic bomb."

To the plane's pilot, the trip meant: "You can go just about anywhere in the world anytime."

There were no frills for the Melrose, Minn., pilot and his crew. The trip was made under conditions the air force considers strictly "operational."

Plenty of Food

There was plenty of food — sandwiches and candy and other items that would keep. Water was carried in five-gallon jugs, standard B-50 equipment. Bedding was the bomber's floor, a few mattresses from regulation GI cots and O.D. blankets. The double crew enabled them to sleep in shifts on regular schedules.

Refueling points were over the Azores, Dhahran, in Saudi Arabia, the Philippines and Hawaii. The refueling "tankers" were converted B-29 bombers, from the 43rd bomb group.

Gallagher and co-pilot First Lt. James A. Neal of Visalia, Calif., kept the plane's log. In restrained words they told the epic flight from takeoff to landing.

The Log

"Takeoff normal except for an extended takeoff run. . . Minor cold front encountered at 20,000 feet. . . Over Azores, picked up tankers and continued on course. . . Refueling underway about 11 minutes after contact. . . Tanker crews report champagne at La.

Non-Paying Bus Passenger Has Vanished

SAN FRANCISCO, March 3.—(AP)—Somebody—and the San Francisco Municipal railway would like to know who—made a cross-country trip on one of the railway's new buses. Didn't pay his fare, either.

It wasn't much of a trick. The bus was on a railroad flat car, being shipped here from Kent, Ohio.

The non-paying passenger converted rear seats into a bed and took his meals aboard with him. Railway officials figured he'd run up a bill of \$25 for the 2,500-mile trip at the local bus rates, but he vanished without paying.

Cardinal Leads 100 Through Picket Lines

To Bury Dead at Strike Bound New York Cemetery

by Drew Pearson

WASHINGTON, March 3—It's funny how, when you make a promise to your wife, something always happens so you can't keep it.

Last week while riding home from California, I made a lot of promises first to myself, and later to the little woman about spending more time at home, seeing more of my family, and taking a good rest on the farm. I had had enough of international good will, I told myself. And after I got caught up with a big pile of mail and wrote letters to the heads of the railroads, and a raft of governors, mayors and other folks who had been extremely nice, I would take Mrs. P. away for the little rest we'd always talked about but somehow never seemed to manage.

So, filled with all these good thoughts, I got home and began to put them into operation right away. Mrs. P. looked dubious at first, but then she almost began to believe me. For I did a very revolutionary thing. I turned off the telephone.

Mrs. P. has always talked about what would happen if I turned off the phone — her idea being that nothing would happen at all. The world, she said, would go on just as usual, and nobody would miss me, nor I them.

So I told her I was going to settle down for a nice long evening with her, wasn't even going to look at my desk, and just to show that I really meant business, I turned off the phone. Of course, I didn't turn off the phone in the kitchen — and I'm not quite sure whether this was by accident or by design. With the phone turned off upstairs, you can still barely hear the phone in the kitchen, but since it sounds faint and far away I am a little braver about not answering it.

Harry Truman Speaks

Well, anyway, having turned off the phone, I began to tell Mrs. P. how I had reformed, wasn't going to work so hard and how we would go away for a little trip. We even began to figure out where we were going.

Everything was lovely, and we even had one solid uninterrupted hour together, when suddenly the telephone in the kitchen began to ring. I was very brave. I ignored it. It rang and rang, but it didn't faze me at all. I just pretended not to hear.

Finally the phone stopped, but about 30 minutes later it rang again. Though it was way off in the kitchen, nevertheless it had a certain air of persistence. Finally I could resist no longer. I picked up the receiver.

The United Press was calling to tell me that President Truman had sounded off at a dinner at the Reserve Officers' Association, calling me an S.O.B. They wanted my comment.

I told them I was spending a quiet evening with my wife, and that if Harry Truman wanted to spend his evenings away from his wife making speeches about other people that was his privilege. I didn't see why I should comment. But, said the United Press, other speakers at the dinner specifically mentioned you and the president's remarks definitely were directed at you.

So, in a weak moment, I commented.

The Telephone Continues

Then I remembered that other long, persistent telephone ring; so, since the fat was in the fire, I called up the Associated Press. "We've just been trying to get you," they said, "but you were out."

"Oh," I replied. Since I'm supposed to be a tough, thick skinned newspaperman, I didn't tell them that I was sitting at home listening to brave enough not to answer it.

After that the phone just kept on ringing, and has kept on ringing every day since. I haven't written all those letters thanking the folks who were nice to me, and I haven't taken the vacation with Mrs. P. In fact, I'm

a little surprised that she's still speaking to me.

"Of course," I was mean enough to tell her, "it's all your fault. You elected him. You were the one who was rooting for him. And if he disrupts our

evening and our vacation, then it's your fault, not mine. After all, you were the one who put him in the White House."

Mr. Truman's Lemon

When I was a youngster I had a prof named Edwin Tomlinson

who used to hand out a lot of advice which I didn't pay much attention to then, but which has proved valuable since. One thing he advised was: "If someone hands you a lemon, make it into lemonade."

That's what I'd like to do with the lemon President Truman handed me the other night. I don't see any reason why the initials "S.O.B." should necessarily stand for what Mr. Truman meant them to mean. The meaning of any word is what's in people's minds. Some English words are fighting terms in England though they have an innocent meaning here. When I was in Australia some years ago I was shocked to hear an Australian girl use a word which never would be tolerated in polite society here. But it meant nothing there.

So words and their abbreviations are all a matter of education, custom and general usage. And I am sure Mr. Truman is a good enough sport to join me in putting a new interpretation on the initials "S.O.B." — which can much better mean "Servants of Brotherhood."

When Harry Truman was a farm boy driving mules in Missouri, I don't doubt that he needed some pretty strong language. I have never driven mules in Missouri, but I had Missouri mules and 100 Albanian mule drivers under my command in Yugoslavia once, and since the Albanians couldn't understand Missourian and the mules couldn't understand Albanian, and since the Serbian corporal couldn't understand either, I had to act as interpreter.

So, along with Harry Truman, I am familiar with mule drivers' language.

However, neither Harry nor I are mule drivers any more. We have graduated, I hope, to bigger and better things. Therefore, I am getting up an engraved "Servants of Brotherhood" mem-

bership certificate, and perhaps some other folks will join me in picking out people in their neighborhood or any place else who have really sacrificed for their fellow men.

There are all sorts of people in this country who are working

hard at democracy, and at being good neighbors and at doing things for others — not necessarily big shots, just ordinary folks. I'd like to write about some of them, tell what they're doing, and spread the word about the Servants of Brotherhood.

ANCHORAGE, Alaska, March 3.—(AP)—It's boom and bust beyond the Arctic Circle.

Couple Will Face Charges In New York

Admit Slaying of N. Y. Woman; Also Two Others

MINEOLA, N. Y., March 3.—(AP)—The district attorney of Nassau county said today Raymond M. Fernandez and his 200-pound girl friend, Martha Beck, will be brought here from Michigan to face a "lonely hearts" murder charge.

Conviction of first degree murder in New York carries the death penalty.

District Attorney James N. Gehrig asked a bench warrant against the pair to speed their return.

Gehrig said an assistant in his office had obtained a "complete and detailed confession" from Fernandez and Mrs. Beck in the slaying of Mrs. Janet Fay, a former Albany, N. Y., woman in Valley Stream. The body was found in the cellar of a house in Queens county.

One of Three Victims

She is one of three victims whom Michigan police said Fernandez and Mrs. Beck killed to further a mail-order money-making romance plot.

Assistant District Attorney Edward Robinson, sent to Grand Rapids, Mich., by Gehrig, has reported back that Michigan will not oppose the return of Mrs. Beck and Fernandez to New York.

Michigan does not have capital punishment. A life sentence is the most the pair could receive if convicted of the murder of a Byron Center, Mich., mother and her daughter.

Fernandez and his thrice-married girl friend are accused in Michigan of killing widowed Mrs. Delphine Downing, 29, and her 21-month-old daughter, Rainell.

Checking Reports

At Lansing, Mich., Gov. G. Mennen Williams said he had not yet decided whether Michigan would permit extradition of the pair.

A Chicago officer, meanwhile, went to Grand Rapids to check two reports.

Sgt. John Doyle of the Chicago homicide squad said he wanted to question Fernandez in connection with a report that a new concrete floor was put in the basement of a Chicago home last summer while Fernandez occupied the place.

He also said he wanted to investigate further the death of Mrs. Myrtle Young in Arkansas a short

Moose on Loose Finds City Pretty

A strange sight, even in the Alaskan city of Anchorage, is a moose wandering around on city streets. This venturesome animal caused much commotion in Anchorage, and townspeople tried to get him out of town with snowballs and lighted flares. But he liked it and wouldn't budge. Later, police shot him, claiming he lunged at children. (Photo by NEA-Acme photographer Dick Chace.)

Hal Boyle Says

By George Tucker
(For Hal Boyle, who is on vacation.)

NEW YORK, March 3.—(AP)—Tom Carson knows Klondike history, several hundred funny stories and whisky.

He learned these the hard way, at first hand.

When he was younger, he landed a raft near Dawson City, Yukon territory and started digging. "We wore beads to keep our faces from freezing. Eggs were two bucks apiece."

That was in 1899, a year after the Klondike was discovered.

Today, 50 years later, Tom Carson is back in New York—and sorry for it.

"I came east to visit my niece," he said. "She's a fine woman—but I ought never to have come."

He said his niece and her husband lived in a little town about 40 miles up the Hudson.

They Mean Well

"They mean well," he went on, "but their idea of a big night is to turn on the radio, mix a pitcher of lemonade, and go to bed. I couldn't stand it."

"I slipped away without telling anybody where I was going."

I came here and found a wonderful bar and spent four days there. I cashed all my travelers checks and wound up busted. Then I called Ida—that's my niece—and asked her to wire me some money. She said she wouldn't do it. She said I'd spend it all and they'd never see me until I was busted. But she's driving down tonight with her husband to pick me up. They'll be here between five-thirty and six."

For this reason, Carson said, he just had to have a small loan until they got there. "To get a meal, and tidy up," he said.

"If you'll let me have it," he went on, "you can have it back first thing in the morning. I'll put it in an envelope and slip it under this door and you'll find it here."

Bird Like Little Man

Carson, at 75, is a bird-like little man whose shirt hangs on him like blizzard wallpaper. His Adams apple flutters like a stricken dove. On and on his voice runs, like Tennyson's brook, until it drowns you in a wave of anecdotes, dates, names and places.

"I saw the fight that Rex Beach made famous in his novel 'The Spoilers.' . . . I lost my gear on Chilkoot Pass. . . I knew Klondike Kate."

After reaching the Klondike, Carson dug gold until his hands blistered. While waiting for the blisters to heal he visited the M&M saloon. There he met Jack London, Tex Rickard, Robert W. Service and so many other interesting people that he abandoned prospecting and drank his way through 50 years of insolvency, warm in the memory of his celebrated friends.

A Bar Slapper

"Rex Beach was a bar slapper," Carson recalled. "If he got an idea while standing at the bar he'd slap it so hard you could hear the bar crack. Then he would bound upstairs—he had a room there—and soon his typewriter would be leaping and jumping. Sometimes he would come back and say, 'I had an idea. It didn't work. Let's have another drink.'"

"Jack London was a wonderful fellow, but he quit drinking and became respectable. Even after Jack left the country he used to send money back to the boys, saying, 'I'm not a drinking man—but have one on me.'"

Code of the North

"It was Wilson Mizner who correctly defined the code of the north. He said you could leave your sweetheart and your money for a month and they'd be there when you got back. But a bottle disappeared in five minutes."

"After Klondike Kate came to the gold fields, life throbbed a little sweeter. We never learned how much gold she sent back to the states."

After the gold camps dried up and the big cities came, Tom Carson settled in Nome. The bars were good. The years passed. Then, one day, came that unaccountable decision to visit his niece.

I know what you're thinking. You're wondering if Tom Carson came back, and slipped that envelope under the door.

Yes, he did.

Court Denies Habeas Corpus

JEFFERSON CITY, March 3.—Four Missouri penitentiary convicts will have to do without "fresh air and sunshine" so far as Circuit Judge Sam C. Blair is concerned.

He ruled against them Wednesday. They had asked to be freed from solitary confinement in the prison's "E" hall and transferred to the prison hospital.

Turning down their requests for writs of habeas corpus, Judge Blair said it was not his job to regulate the penitentiary's internal affairs.

The four have been described by Thomas E. Whitecotton, corrections director, as troublemakers. They are:

Jack Stroemle and Frank Earnest, serving 30 years from Lincoln county for robbery of the Hawk Point, Mo., bank in 1943.

Vernon Mitchell, serving 30 years from Cooper county for robbery with a deadly weapon, and Ralph King, serving four years from Greene county for grand larceny.

Officers Elected By Camera Club

The Sedalia Camera club held its annual election of officers at the meeting held Tuesday evening at the home of Mr. and Mrs. H. J. Heerman, of 1100 Wilkerson. The new officers are president, Robt. J. Zoernig; vice-president, H. J. Heerman; and secretary-treasurer, William J. Eschbacher.

The feature of the meeting was a lecture and demonstration by Bill Padgett on "Infra-Red Photography." He accompanied the lecture with a demonstration during which he photographed the newly elected officers with infra-red light and film. The negatives were then developed and inspected on the spot. This was of particular interest because the topic was one generally unfamiliar to the members.

The print subject for the meeting was "Hands," and pictures were shown and discussed.

The print subject for the next meeting will be pictures displaying emotion. Arrangements are being made for the first in the new series of lecture-demonstrations which the club will begin in the near future.

The next meeting will be on Tuesday, March 15, at the home of William J. Eschbacher, 1101 West Second street.

Sportsmen Bombard A Committee

Voice Support Of State's Independent Commission

JEFFERSON CITY, March 3.—Missouri sportsmen bombarded a House committee Wednesday with support of the state's independent conservation commission. They told the constitutional amendments committee—some times angrily—that anyone who approved a pending measure was no conservationist but only the worst sort of politician. Up for consideration was a proposed constitutional amendment that would strip the state wildlife agency of all its regulatory power and give it back to the legislature—just like it was a dozen years ago under the old fish and game commission. The amendment was sponsored by Rep. Tom Shockley (D) of Pulaski county. He also is chairman of the committee considering his proposal. Several speakers pointed their vehement remarks right at the chairman. Magistrate Nelson Evans of Carthage said both he and Shockley are politicians and "men like you and me are not competent to make laws to conserve Missouri's wildlife."

Shockley broke in: "I think you're so radical that you're hurting your cause."

But the crowd of nearly 200 routed its approval when Evans replied:

Raps Old Commission
"No, you can't take it, Tom. You just can't take it."

He said he was reared on the Nangua river during the year the old fish and game commission operated. "I think it was the most contaminated, most stinking setup that this state ever had."

He said he could name persons and places to prove that. Shockley said earlier he introduced it because he didn't want the commission to destroy itself. He said if it continues to make its own hunting and fishing rules, it won't last long because the people won't obey the rules.

Jim Gianladis of St. Louis, representing the United Sportsmen's League, called anyone favoring the measure a "modern day Judas" who would betray Christ for 30 pieces of silver."

He also quoted national conservation leaders as putting the Missouri commission at the top among such state agencies.

Bitter In Denunciation
More than once bitter denunciation from speakers opposing the measure brought sharp rejoinders from the chairman. Several times other members of the committee joined in.

Once, Rep. Douglas Mahoney (R) of Taney county stopped a speaker to remind him that all the committee members were not going to vote for the measure. Mahoney said quite a little hunting and fishing himself.

"I just want you to know you have some friends here," he said. The angry argument caused another committee member to leave.

"I'm opposed to the resolution, but if I have to stay any longer I may have to change my vote," said Rep. Charles T. Wolf (R).

Rockne Dinner In KC Tonight

KANSAS CITY, March 3.—(P)—Al Feeney, mayor of Indianapolis, Ind., will be the featured speaker at the 18th annual Knute Rockne testimonial dinner to be held here tonight.

Feeney was a former teammate and classmate of the late Notre Dame football player and coach. Other feature guests will include: Former Governor Dwight Griswold, of Nebraska; Attorney Marion Robertson, of Marshall, Mo.; Bishop Joseph H. Marling, of Kansas City; the Rev. L. Curtis Tiernan, of Kansas City, retired army chaplain; J. Vivian Truman, of Kansas City, brother of President Harry S. Truman; Mayor William E. Kemp, of Kansas City; Mayor Roger T. Sermon, of Independence, Mo.; and Mayor Clark Tucker, of Kansas City, Kas.

The dinner is held annually to perpetuate the memory of the late Notre Dame coach. It is sponsored by the Rockne club, of which Dr. D. M. Nigro, of Kansas City, is founder and president.

The last two falls did not last so long, because when Myers entered the ring for the second and third time, revenge was his war cry. He gave Coffield a thorough going over, without using dirty tactics. The second fall ended in five minutes and 29 seconds, and the final in five minutes flat.

Lucky Simunovich of Hawaii was the champ in the special match over Lou Newman, taking the one fall in a 31 minute bout in 20 minutes 42 seconds. The two exchanged holds and body punches pretty much on an even keel, until Lucky decided he had enough of Newman's treatment—so he jumped over the referee's shoulders and ploved his two powerful legs around Newman to down him to the mat for the fall.

The two grapplers objected many times the decisions made by the referee, Jay Steele, who has appeared in the ring numerous times as a wrestler, but they did not attempt to over-rule the third man in the ring, who appeared to be quite capable of taking care of himself.

"Red Phantom" Wins
Who is the Red Phantom? That question still remains unanswered, since the Phantom, matched against Ken Korath, won both falls. The rule is if he ever gets defeated, he is to unmask. The mystery wrestler won the first fall in 16 minutes 17 seconds and the final in nine minutes 12 seconds.

Although he won, the crowd disapproved of the referee's decision. Kenneth kept the match clean, but sometimes the Phantom pulled so many mean tricks, Kenneth let lose with a few tricks of his own. Kenneth tried to pull his opponent's mask off, but every time he got close to getting the job done, the Phantom would make a dive out of the ring.

Next Wednesday night, if Sonny Myers can't force him to unmask, then the Phantom will continue to have the satisfaction of playing mystery man. The two will be matched in the main event.

Jules La Rance, semi-windup, and Jules' brother, Johnny La Rance, will be matched against Red Roberts in the added attraction bout.

Oklahoma Sooners Meet Jayhawks Tonight
LAWRENCE, Kas., March 3.—(P)—The University of Oklahoma Sooners will continue their back-to-the-wall battle for the Big Seven conference basketball championship in a game with Kansas' Jayhawks at Lawrence, Kas., tonight.

Coach Bruce Drake's Sooners, a game and a half behind Nebraska in the standings, have won 6 and lost 3 league games. They will meet Nebraska (6-2) at Lincoln Saturday in a game that could determine the championship.

Oklahoma defeated Kansas, 38-36 at Norman, Okla., earlier in the season. Kansas has won only 3 of 3 conference games.

Meyers Wins Over Coffield

Kenneth Fails To Unmask The Red Phantom Here

What was anticipated by local wrestling fans, did happen in the feature match at the Armory Wednesday night, and that was a most exciting battle to the finish in a no time limit affair between Sonny Myers and Jimmy Coffield.

Difference of opinions were evident in the ring, but in the end, Myers made up for the beating he took last week, and for painful twists his left arm received last night in the first two rounds.

Coffield won the first fall in 28 minutes and 27 seconds by attacking his opponent with a hammer lock hold. Before the fall ended, Myers was the victim of several stunting blows, which left him temporarily groggy after the fall.

The last two falls did not last so long, because when Myers entered the ring for the second and third time, revenge was his war cry. He gave Coffield a thorough going over, without using dirty tactics. The second fall ended in five minutes and 29 seconds, and the final in five minutes flat.

Meyers Wins Over Coffield

Kenneth Fails To Unmask The Red Phantom Here

What was anticipated by local wrestling fans, did happen in the feature match at the Armory Wednesday night, and that was a most exciting battle to the finish in a no time limit affair between Sonny Myers and Jimmy Coffield.

Difference of opinions were evident in the ring, but in the end, Myers made up for the beating he took last week, and for painful twists his left arm received last night in the first two rounds.

Coffield won the first fall in 28 minutes and 27 seconds by attacking his opponent with a hammer lock hold. Before the fall ended, Myers was the victim of several stunting blows, which left him temporarily groggy after the fall.

The last two falls did not last so long, because when Myers entered the ring for the second and third time, revenge was his war cry. He gave Coffield a thorough going over, without using dirty tactics. The second fall ended in five minutes and 29 seconds, and the final in five minutes flat.

Lucky Simunovich of Hawaii was the champ in the special match over Lou Newman, taking the one fall in a 31 minute bout in 20 minutes 42 seconds. The two exchanged holds and body punches pretty much on an even keel, until Lucky decided he had enough of Newman's treatment—so he jumped over the referee's shoulders and ploved his two powerful legs around Newman to down him to the mat for the fall.

The two grapplers objected many times the decisions made by the referee, Jay Steele, who has appeared in the ring numerous times as a wrestler, but they did not attempt to over-rule the third man in the ring, who appeared to be quite capable of taking care of himself.

"Red Phantom" Wins
Who is the Red Phantom? That question still remains unanswered, since the Phantom, matched against Ken Korath, won both falls. The rule is if he ever gets defeated, he is to unmask. The mystery wrestler won the first fall in 16 minutes 17 seconds and the final in nine minutes 12 seconds.

Although he won, the crowd disapproved of the referee's decision. Kenneth kept the match clean, but sometimes the Phantom pulled so many mean tricks, Kenneth let lose with a few tricks of his own. Kenneth tried to pull his opponent's mask off, but every time he got close to getting the job done, the Phantom would make a dive out of the ring.

Next Wednesday night, if Sonny Myers can't force him to unmask, then the Phantom will continue to have the satisfaction of playing mystery man. The two will be matched in the main event.

Jules La Rance, semi-windup, and Jules' brother, Johnny La Rance, will be matched against Red Roberts in the added attraction bout.

Oklahoma Sooners Meet Jayhawks Tonight
LAWRENCE, Kas., March 3.—(P)—The University of Oklahoma Sooners will continue their back-to-the-wall battle for the Big Seven conference basketball championship in a game with Kansas' Jayhawks at Lawrence, Kas., tonight.

Coach Bruce Drake's Sooners, a game and a half behind Nebraska in the standings, have won 6 and lost 3 league games. They will meet Nebraska (6-2) at Lincoln Saturday in a game that could determine the championship.

Oklahoma defeated Kansas, 38-36 at Norman, Okla., earlier in the season. Kansas has won only 3 of 3 conference games.

Sports Before Your Eyes
The NCAA baseball finals are almost sure to be shifted from Kalamazoo, Mich., to Wichita, Kas., this spring. Seems Wichita is ready to underwrite the \$10,000 expense and the college folks were greatly impressed that the national non-professional tournament there started with a \$10,000 game in 1935 and drew almost \$100,000 last year. Tony Lavelli Still Scoring

NEW HAVEN, Conn., March 3.—(P)—Yale's Tony Lavelli, the hottest hit scoring machinery in college basketball today, has three more regularly scheduled games in which to continue his assault on all-time collegiate scoring records.

All are eastern intercollegiate (Ivy) league games, one with Columbia and two with Harvard. Totalin' Tony brought his own all-time record to 1870 points last night by scoring 32 points as his Ivy league leaders defeated the University of Connecticut, 71-55. The game gave him a tie for fifth place on the all-time scoring list with big George Mikan, the former DePaul university star.

Lavelli has little chance of heading off the first two men on the all-time list. He would need 292 points in three games to better the 2161 points held by Brooms Abramovic of Salem. He would need 153 points, 51 points per game, to better the 2022 points held by second place Jim Lacy of Baltimore Loyola, who still is an active collegiate player.

Lavelli, hit for 11 field goals and 10 free throws last night. But the first point he makes in his next game will carry him past Mikan and head him straight for fourth place Griffith of Alderson-Broadbush, who has 1941. He will need 72 points to pass that hurdle.

Stairs Climbing Cow Grounded

LAWTON, Okla., March 3—(AP)—Iodine the cow, who likes to climb stairs, has been grounded. Farmer Glen Fuqua is going to keep the door to his hayloft shut. That's the simple solution. Fuqua came home to his 360-acre farm to find Iodine sticking her head out the second story window of the barn, looking at her calf.

"We had a deuce of a time getting her down. Those stairs are 45 degrees, and we had to poke her with an electric shocker with one hand and hold her back with the other."

After Iodine did that the second

time, Fuqua decided to keep the door closed.

"I just hadn't thought about barring her way before, but it's a lot of trouble to get her down so I'll just keep the door closed."

Ralph Partridge, Denver Post farm editor who freed Grady, the silo confined cow at Yukon, Okla., offered a similar suggestion.

Partridge said a two-by-four on a hinge across the stairs would stop Iodine.

Said Partridge:

"Some of my best friends are cows, but I've never known one that could unlatch a gate."

Budget Fish Meals For Lent

SCALLOPED OYSTERS . . . Serve it in scallop shells.

SPAGHETTI 'N CODFISH CAKES . . . For meatless days.

By Cecily Brownstone
Associated Press Food Editor

Here are two inviting ways to fix fish for Lenten meals — one recipe uses that old inexpensive standby, codfish; the other caters to seafood lovers and calls for oysters.

Spaghetti 'n Codfish Cakes

Ingredients: 2 cups salt codfish, 3 cups mashed potatoes, 2 eggs, dash of freshly ground pepper, 1 eight-ounce package spaghetti, 2 eight-ounce cans tomato sauce, grated Parmesan cheese.

Method: Soak the codfish in cold water about 2 hours. Drain and add fresh water. Bring to boil and simmer 16 to 15 minutes. Drain and press dry. Flake and mix well with mashed potatoes, beaten egg and dash of freshly ground pepper. Shape into small balls or drop by heaping teaspoonfuls into hot deep fat (360-380 degrees F.) and fry until golden brown, about 2 to 4 minutes. If thermometer is not available, fat is hot enough when a one-inch cube of bread browns

in 40 to 50 seconds. In the meantime cook spaghetti according to directions on package and heat tomato sauce. Arrange spaghetti in large serving dish; place fish balls in center and pour hot tomato sauce over. Sprinkle generously with Parmesan cheese. Makes 6 servings.

Note: If desired the spaghetti tomato sauce and cheese may be served together, and the codfish cakes separately.

Scalloped Oysters

Ingredients: 1 quart oysters, 1/2 cup cream, 1 1/2 cups cracker crumbs, 1/2 cup butter or margarine (melted), 1/4 cup chopped green pepper, 1/4 cup chopped celery, salt and paprika (to taste).

Method: Drain oysters; reserve liquid and combine with cream. Mix cracker crumbs and melted butter or margarine. Grease scallop shells or ramekins. Mix oysters, buttered crumbs, green pepper, celery, salt and paprika and the cream mixture. Spoon into shells and bake in a hot (400 degrees F.) oven for 20 minutes.

Mrs. Permelia Howard celebrated her 95th birthday February 24. She has lived on a farm

Remember back when you were no bigger than a minute how you used to love to play grocery store or butcher shop?

Well, young high school people at the Foods Trade Vocational School in New York have a super deluxe grocery store, complete with 1500 items, butcher shop and bake shop right in their school!

Of course there is a gimmick... all the students are interested in going into business where a knowledge of baking, culinary arts, meat merchandising, merchandising of food stuffs and meat work at anything from oven man or meat boner to fry cook.

The kids work hard at it. Whereas the regular academic school course is 5 hours a day, they study 6 hours, have no study period in school. Instead of pure math, their applied mathematics includes bookkeeping and business accounting. Science courses stress such things as enzymes, what happens to yeast when heat is applied, what effect heat has on cooking materials, etc.

All the students begin with the

food merchandising course—basic for general knowledge. They learn about canning, packaging, bottling; sizes, quantity; retail, wholesale work.

Meat is sent from wholesalers to be prepared by students in their own butcher shop, complete with chopping blocks, refrigeration, show cases. They handle from five to 15 tons of meat per shipment. The kids are good, too.

Mr. Simonson, school principal, says: "These students have to be 100 per cent at the job. If they weren't wholesalers would stop supplying us with the meat. Then how would we keep up the butcher shop?"

The bake shop is also on a self-supporting basis. The kids sell cakes they bake to students and teachers and to other schools in the neighborhood to help allay upkeep costs.

Students learn how to plan and cook a complete menu. To prove it recently, they cooked a luncheon for The Partridge Club (a luncheon club, comprising food purveyors and others of the hotel

industry.) One chef of a large hotel—member of the club—said: "I don't think my own staff could have done a better job." The students of the 5th and 6th terms cooked a delicious meal from steaming bean soup to turkey to cake.

When they are graduated the kids receive a regular high school diploma with special commendation for cooking, baking, meat or grocery work. Many of them then go into apprenticeships at hotels, meat packing and food stuff

houses, later into business for themselves.

"-NO MORE UPSET STOMACH"

Do you suffer heartburn after meals?...feel logy?...uncomfortable?...Then read this heartening letter from a woman who found her way to better digestion and better health:

"Before switching to POSTUM, I suffered both indigestion and nervousness... But now my nerves are quieted and my digestion much improved. No more upset stomach after drinking POSTUM!"

SCIENTIFIC FACTS: Both coffee and tea contain caffeine, and caffeine is a drug which in many persons tends to produce harmful stomach acidity, as well as nervousness and sleepless nights. So while many people can drink coffee or tea without ill-effect, others can't—and this may mean YOU!

MAKE THIS TEST: Give up coffee—give up tea—drink POSTUM exclusively for 30 days—and judge by results! Remember: POSTUM contains no caffeine or other drug—nothing that can possibly cause indigestion, nervousness, sleeplessness! Crochet Hooks Strike Gold

By Dorothy Roe
Associated Press Fashion Editor

There's a brand new gold rush of 1949, and smart prospectors are finding the glitter stuff in hats, bags, dresses, coats, shoes and gloves.

Girls who are handy with the crochet hook or knitting needles can produce their own gold standard at pin money cost, with the new lurex yarn, an aluminum based metallic yarn now available in elasticized as well as cord form, for home needlework.

The new yarn is washable, cleanable and non-tarnishing. It works up quickly into such trick accessories as jenkins, weskits, gloves, belts, bags, lounging slippers and caps. Following are instructions for crocheting the Juliet cap, matching evening bag and sandal pictured here as worked out by the Heirloom Needlework Guild:

POP Goes the QUEEN
By Bob Wade and Bill Miller

THE STORY: John Henry and his Conover, vacationing at a swank resort in the California desert, are deeply involved in a murder. Trying to extricate themselves, Sin is nearly kidnapped by Gayner and Vernon, two employees of Mr. Barclay, who owns the resort, and Johnny is dragged at a gambling ranch where he was taken by Faye Jordan, a mysterious girl. When the Conovers are brought together again by Mr. Trim, who is supervising the Conovers' expense-paid vacation, they decide to go home. Johnny finds his car keys were taken when he was searched at the gambling ranch. Then they spy Gayner and Vernon hunting for them. They find Faye Jordan's car with the keys in the ignition and escape in it.

XXIII
THE coupe swerved to the right, cut around the parked cars and hurtled without a pause onto Coahella Street. At the corner, John Henry spun the car left and gunned off down Date toward Highway 99 and escape from Azure. Sin squirmed around for a last look at the hotel. "Johnny!" she squealed. "Hurt yourself?" "They're following us!" The Mercury raced recklessly onto Highway 99. John Henry flicked his eyes at the rearview mirror and swore definitively. A big black Buick sedan danced in the polished surface. It looked like Vernon behind the wheel. Sin studied her husband's frown. "What can we do, honey?" "Let me think a minute," John Henry begged. He kept the accelerator flat against the floor mat. The shivering needle of the speedometer rocked past the black 60, heading for 70 with no hesitation. John Henry's cheerful face went suddenly incandescent. "The ranch!" he shouted. "There's a crowd at the ranch. They can't do anything to us in a crowd." "But, Johnny, that's where—" "Faye's back at the hotel—we've got her car. And Lieutenant Lay's at the ranch, isn't he? It's the

while," he said. "By the time he finds out we're not in front of him, we'll be in safe company." A few minutes later the Bar C Ranch sprawled before the windshield. THEY whisked under the log arch, up the driveway past the tamarisks and oleanders and came to a stop in the parking area. The drove of untended automobiles had vanished from the rocky pasture. "H'm," mused John Henry. "I hope the place isn't closed." They didn't knock. John Henry had no admittance card and he didn't want to summon Sidney. The door opened easily, sliding silently into the dim foyer of the ranch house. The Conovers stepped in tentatively. "I don't hear anything. You don't hear anything, do you?" Sin pressed the point nervously. "It's in a back wing. That's where everybody is." They crept cautiously down the long gloomy corridor and John Henry pulled aside the drape. Then he felt happier. Through the heavy arched door to the gambling salon he could hear the familiar raucous song of the juke box and the clang of the slot machine just inside. "We made it all right, honey!" he cried joyously, seizing his wife by one hand. He threw open the big door and plunged into the casino. They stopped short on the threshold. The juke box was lit up crimson and blared noise of merry-making but the great square room was empty of gamblers. Only two men remained of the crowd that John Henry had expected to mingle with. "Well, look who came," said Barselou from where he stood before the one-armed bandit. He had pulled down the lever and the machine made buzzing sounds. It stopped whirring with a click and then a flood of quarters began to pour from the metal mouth. "Jack pot," commented the other man and got up from his impromptu seat on a covered faro table. It was the plump waiter from the Ship of the Desert, but dressed now in a brown suit. In one fat hand he held a revolver. (To Be Continued)

Camera News

By Irving Desfor
AP Newsfeatures Photo Art Director

Edward Steichen sank into his chair. On his face was a look of relief and weariness. His voice still rang clearly, however, when he discussed his favorite topics—pictures and people.

"They keep me going no matter how impossible the job looks," he said. "They're the ones in the pictures... and they're the ones who come to have a look."

"They're an average cross section of America... just like those in Barney Cowherd's picture from the Louisville Courier-Journal."

"By the way, I found out afterward he was one of my boys... a Navy photographer," ex-Capt. Steichen proudly added.

"But people... just people were here last night when the exhibition opened," he continued, "and now I know it was worth while."

This was the day after Steichen's impressive collection of a century of great news photographs had been unveiled at the Museum of Modern Art in New York. The years of planning, the months of preparation, the weeks of dead-end wrestling with 300 pictures were over.

He could even josh now about what looked like a tragedy just a little while ago.

He had finally found the source of a photo which had impressed him ever since 1926 when it was taken. A picture agency submitted a contact print, along with many others, as an exhibition possibility.

"Yes, of course, we have the original negative right here," a file clerk told an excited Steichen over the phone.

"Sure I'll get it right out and have it available for a big blow-up. Here it is... Oops... holy smokes! It's busted! I didn't know it was a glass negative!"

Just people!

Which reminds me that they're getting younger all the time in the photo game.

At 7 my daughter takes flash pictures with an inexpensive fixed focus camera, becomes her class' official photographer and keeps her own album.

At 29 they become top photo executives like Charles Percy of the Bell and Howell Co. They tell me he is the youngest president of a major manufacturing firm in the U. S.

But that was a few weeks ago. Now we hear about Robert E. V. He is only 25 and the new president of the American Bolex Co. That's the outfit which imports motion picture equipment from Switzerland and manufactures exposure meters, range finders and other accessories in the U. S.

Here's how he solved a problem when the firm was faced with the necessity of redesigning their exposure meter. He was in the bath room shaving, washing and groping for an idea of a handy shape for the new meter. Suddenly he became conscious that the bar of soap in his hand was a perfect fit... easy to hold. That was it!

He dashed out for a piece of paper and traced the design.

"PEOPLE" by Barney Cowherd of the Louisville Courier Journal was chosen by Edward Steichen, as good Americana.

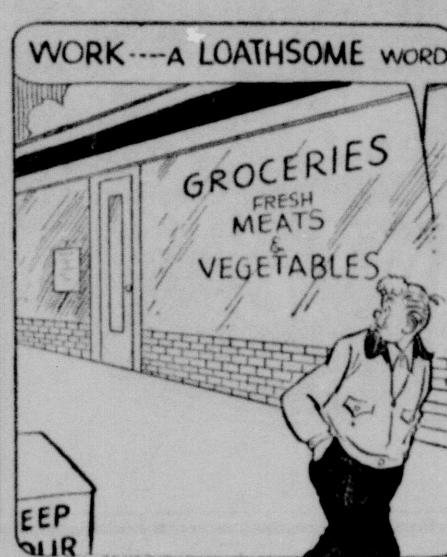

Cucumbers were a favorite dish of the Roman emperor Tiberius. Democrat-Capital class ads get results. 10 words, 1 week, 80c.

Goon In The Moon

According to the good people of Nice, France, this is what the inhabitants of the moon look like. The annual Carnival of Nice, using the theme of the year 2000, featured a float with this jolly gent on it. Thousands witnessed the yearly extravaganza on the French Riviera.

Ask Union Help Keep Down Price

DETROIT, March 3—(AP)—The Ford Motor Co. Wednesday said that a pension plan for its 106,000 workers can result only "in higher car prices," and asked union help in keeping prices down.

The statement was made in a letter from Ford vice-president John S. Bugas to United Automobile Workers President Walter Reuther.

Union officials declined any immediate comment.

The UAW-CIO has announced that Ford will be the No. 1 target in a drive for \$100 a month pensions for automobile workers, over and above social security payments. Workers would be eligible at the age of 60.

Busy In The Roll Call For The Red Cross

Solicitations Are On By Women And Business Men

Fifty-two women, mostly housewives, and thirty-four business men of Sedalia are responding to a duty call to collect \$10,821 for Pettis county by canvassing the residential and business areas during the National Red Cross drive, which started March 1 and continues through March 15.

Joe L. Rosenthal, chairman of the business area, said the drive has always gone over, and gave full assurance it would this year. Noel Tweet is chairman of industry, and Abe Silverman is co-chairman of the business area.

In charge of volunteer workers who will visit each home in the community to collect money for the Red Cross is Mrs. Henry Menefee. Co-chairmen are Mrs. Philip McLaughlin and Mrs. J. W. Starke.

Mrs. W. E. Bennett, 1114 East Seventh street, was the first woman to complete her territory and make returns to headquarters. With the same area she worked last year, she turned in a greater sum of money this year.

Other Workers Active
Other workers in the women's division fund campaign drive of 1949 are:

Passed Liquor Control Bill

Sixty-nine Years Of Prohibition In Kansas To End

TOPEKA, Kas., March 3—(AP)—The Kansas senate Wednesday adopted 28-12 a conference report compromising differences over a state liquor control law and sent the long-disputed bill to Gov. Frank Carlson for his signature.

The House had approved the report 75-48 a couple of hours earlier.

A last stand against adoption of the compromise on three major Senate-House differences was made in both branches.

Each sought to have the measure sent back to conference. The House defeated a motion to this effect 66-57 and the Senate beat down a similar one 23-17.

Local Option Provision
As finally approved the bill: Retains local option and provides that cities which voted against repeal in November may go wet by election called before May 15, either by resolution of local governing bodies or by petition.

Turns over all gallonage taxes to the state, as the administration had demanded, but provides that revenue from a 2 per cent "enforcement tax" will go to counties and cities on the same distribution basis as the sales tax formula. There will be no sales tax as such on liquor in the state.

Bans drinking in any place where the public has general access.

These were the major points at issue during the seven week legislative battle over the bill.

The bill terminates 69 years of prohibition in Kansas.

Governor Carlson said he is "greatly gratified by the action of the legislature."

"This law," he said "provides rigid control of the sale of package liquor, eliminates sales by the drink and drinking in public places, and affords the means for strict law enforcement."

"The members of the legislature deserve great commendation for their faithful efforts, for their long, hard hours of work and the performance of their duty to achieve a fair and workable law. They have my sincere congratulations."

"When the bill comes to my desk for examination and signature, I shall make a statement in greater detail of my views on the act."

Boost Is Given On Whole Milk

WASHINGTON, March 3—(AP)—Congress was told Wednesday that God may want people to drink whole milk, rather than to have it churned into butter. And Rep. Reid Murray (R-Wis) said he would as soon eat lard as oleomargarine.

These observations came out during a noisy hearing before the House agriculture committee.

The committee is listening to testimony on bills which would repeal federal taxes on margarine.

This Won't Hurt

A Red Cross staff nurse helps as a public health doctor binds the head wound of a small disaster victim.

Woe To Womack Over A Check

KANSAS CITY, Kas., March 3—(AP)—Homer Womack, a railroad switchman Wednesday for helping prevent a possible train wreck near here last month.

Womack was one of three hunters who flagged down a Missouri Pacific streamliner Feb. 14 after they had discovered a 12-inch section of a rail missing just west of Bethel.

A few days later he received official recognition for his aid in preventing a wreck which would have endangered the lives of the 72 passengers aboard the streamliner.

Last Thursday he received a letter and a \$500 check drawn on the Farmers Bank of Walker, Mo., from a woman for "saving the life of my daughter who was on the train you stopped."

Wednesday the check bounced. Worst part of it is that Womack used part of the money to pay off bills and is going to have trouble picking up the check now.
